Geography United States and Canada

THE HARREN DIFFERENCE

Stability

The investment professionals at Harren possess well over 100 years of combined private equity investment and operating experience.

Partnership

We believe in alignment of interests at all levels. We employ straight forward capital structures and invest in the same common equity as management.

Focus

Harren's approach centers on operational excellence and insightful strategic analysis, rather than financial engineering. Our careers have been dedicated to partnering with management teams to develop world-class organizations in the lower middle market.

Experience

Harren's professionals have worked with companies facing a variety of strategic opportunities and challenges. We have consistently invested in numerous specific industry sectors in order to enhance our expertise and appeal to owner/operators in those sectors.

Operational Support

Harren professionals are involved through significant project-oriented, on-site support. Harren's support on a strategic or project-level basis allows the company's senior-level management to focus their time and attention on running the business.

Certainty

We manage the transaction process to ensure certainty of closing. Our fund credit line allows us flexibility to close quickly.

ABOUT HARREN

Harren Equity Partners is a private equity firm dedicated to the growth and development of industry-leading companies through the creation of strong partnerships. Harren's strategy is to create long-term value by

improving operational performance, providing in-depth strategic analysis, and executing a plan in partnership with portfolio company executives. Harren professionals take time to learn the business from the beginning of our investment process, develop and implement a strategic business plan, and support management with the increasingly complicated decisions associated with growing a business.

Founded: 2000
